

PROFESSIONAL SUMMARY

Computer Science undergraduate (B.E. CSE, CGPA 8 /10) with hands-on experience in full-stack development, Java, Python, and JavaScript, and a strong foundation in Data Structures, Algorithms, DBMS, and OOP. Skilled in building scalable web applications, REST APIs, and AI/ML-driven systems from first principles, with a strong interest in real-time, high-assurance infrastructure.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

AI / ML: Machine Learning fundamentals, Python-based data analysis, AI-driven system design

Backend & APIs: SQL, PHP, REST API design & integration

Web Technologies: HTML, CSS, Bootstrap, React, MERN Stack

Database: MySQL, Relational Database Design

Systems & Tools: Git, Version Control

Core CS Concepts: Data Structures & Algorithms, OOP, DBMS, System Design Fundamentals

Soft Skills: Problem Solving, Adaptability, Communication, Self-Learning, Ownership

PROJECTS

HemoScan AI — AI-Based Healthcare Assistance System

- Built an AI/ML-powered health monitoring system in Python for early-stage health analysis, applying first-principles thinking to turn a real-world healthcare problem into a working 0→1 prototype focused on data-driven insights.

Task Manager — College ERP Module

- Designed and developed a task management module within a college ERP system, enabling faculty to assign, track, and manage tasks reliably at scale. Improved workflow orchestration and system usability, translating stakeholder requirements into a structured technical solution.

College Branding Website

- Contributed to a full-stack website using structured, component-based front-end architecture (HTML, CSS, Bootstrap) to present institutional information through a reliable, user-friendly interface. Live at [MKCE](#)

INTERNSHIP & EXPERIENCE

Frontend Developer Intern — KLABS Technology Solutions (1 Month, In-Person)

- Gained hands-on experience with the MERN stack, building and integrating front-end and back-end components to enhance application functionality and user experience.

Student Trainee — Technology Innovation Hub (Aug 2025 – Apr 2026, In-Person)

- Applied theoretical CS knowledge across front-end and full-stack development to design responsive, adaptable, and user-friendly web applications using modern technologies.
-

EDUCATION

B.E., Computer Science & Engineering — M. Kumarasamy College of Engineering, Karur (*Aug 2023 – May 2027*)
CGPA: 8 / 10 (Till Sem VI)

Higher Secondary Education — Sowdaambikaa Matric Hr. Sec. School, Thottiyam (*June 2022 – April 2023*)
Percentage: 91.5 / 100

CERTIFICATIONS

- Human Computer Interaction, Introduction to IoT, Blockchain & its Applications — NPTEL
- AI Foundation — Springboard

ACHIEVEMENTS & AREAS OF INTEREST

- Second Prize — SiteSpark, Website Creation Event, MKCE
 - Participant — Smart India Hackathon (SIH) 2025
 - Areas of Interest: Database Management Systems, Full-Stack Development, AI/ML Systems, Scalable Web Applications
-
